

Dear Member,

Your comfort, mobility, and quality of life matter. That's why IBEW Local 313 has partnered with AposCare® to offer Apos®, a non-invasive and drug-free solution for those suffering from chronic knee pain.

Apos® is an FDA-cleared personalized foot-worn medical device that relieves pain from knee osteoarthritis.

- Apos® helps you move better, and reduces the use of pain medications, injections, and knee surgery. It's backed by extensive clinical research and real-world results.
- The AposCare® clinical team comes directly to your home to custom-calibrate your device. No travel is required.
- You wear your personalized medical device up to an hour a day in the comfort of your home.
- 94% of our patients would recommend Apos® to friends and family.

Why Apos®?

Please reach out to AposCare® at **(888) 599-9109** and mention you are with IBEW Local 313 to see whether you may be a good candidate for Apos®.

Sincerely, IBEW Local 313

Apos® is not suitable for people with an active joint infection in the knee, back, or elsewhere in the body, require a cane or walker for mobility, have experienced two or more unexplained falls within the past year, have severe neurological or comprehension issues preventing proper use of the Apos® device, or have severe balance problems or vertigo.
